LPSC Junior Programme of Study (Session : 2026-27)			
Class : VII (ICSE)			
SUBJECT : MATHEMATICS			
Month	Suggested Topic	Text Book Pages to use (Where appropriate)	Method of Assessment
March + April	Integers	4, 5, 7, 13, 14, 17, 19	Continuous notebook work is assessed to monitor conceptual clarity and accuracy in operations. Class tests are conducted to evaluate application and logical reasoning skills.
	Fractions & Decimals	28, 30, 35, 36, 38, 42, 43	Regular notebook practice is assessed to ensure procedural fluency and accuracy. Structured class tests evaluate conceptual understanding and multi-step problem-solving ability.
	Symmetry	263, 264, 269, 270	Activity-based assessment is conducted through hands-on tasks and design creation. Teacher observation evaluates creativity, accuracy, and spatial understanding.
	Algebraic Expressions	161, 162	Notebook work is assessed to monitor understanding of expressions and simplification steps. Class tests evaluate accuracy and conceptual clarity in algebraic operations.
May + June	Lines & Angles	193, 194, 200, 201	Practical assessments evaluate construction and measurement accuracy. Activity-based tasks assess understanding of angle relationships.
	Algebraic Expressions	165, 166, 167	Notebook work is assessed to monitor understanding of expressions and simplification steps. Class tests evaluate accuracy and conceptual clarity in algebraic operations.
July + August	Exponents & Powers	86, 67, 92, 93, 96	Notebook work is assessed for correct application of exponent rules. Quizzes and tests evaluate speed and conceptual understanding.
	Triangle & Its Properties	210, 214–216, 219, 220	Activity-based assessments evaluate understanding through construction tasks. Teacher evaluation focuses on reasoning and classification skills.
	Ratio & Proportion	119, 120, 122, 123, 125, 127	Notebook work is assessed for correct application of concepts. Class tests evaluate analytical thinking and problem-solving ability.
	Practical Geometry	257	Hands-on assessment evaluates precision and execution steps. Teacher observation assesses neatness and correctness.
September	<i>Revision</i>	Complete syllabus	MID TERM EXAMINATION

October + November	Percentage and its Application	136, 137, 141, 142	Notebook work is assessed for correct methods and application. Class tests evaluate problem-solving ability in practical contexts.
	Sets	105, 106, 110, 111	Notebook work is assessed for correct representation of sets. Tests evaluate classification and logical reasoning skills.
	Triangle & Its Properties	221, 225	Activity-based assessments evaluate understanding through construction tasks. Teacher evaluation focuses on reasoning and classification skills.
November + December	Perimeter & Area	294, 295, 299–301	Notebook work is assessed for correct formula application. Class tests evaluate calculation accuracy and understanding.
	Congruence of Triangle	230–241, 246–247	Activity-based assessment evaluates understanding of criteria. Teacher evaluation focuses on logical reasoning and proof.
	Rational Numbers	62, 63, 68, 69, 75	Notebook work is assessed for accuracy in operations. Class tests evaluate conceptual understanding and application.
December + January	Visualising Solid Shapes	279, 280, 282	Practical assessments evaluate spatial understanding. Observation-based evaluation of model activities.
	Data Handling	321, 324, 325–327	Notebook work is assessed for correct data representation. Project work evaluates interpretation and analytical skills.
	Linear Equations	174, 175, 178	Notebook work is assessed for step-wise accuracy. Class tests evaluate reasoning and application skills.
	Linear Inequalities	180	Notebook work is assessed for correct solving methods. Class tests evaluate conceptual clarity and representation skills.
February & March	<i>Revision</i>	Complete syllabus	END YEAR EXAMINATION
